

TRANSPORT MEDIA

MTM

Our Molecular Transport Media products will rapidly inactivate viruses (including Influenza), bacteria (including MTB) and high consequence veterinary pathogens, stabilizing RNA/DNA to provide safer and more efficient molecular workflow.

Thomas No.	Description	Quantity
CHM00C227	PrimeStore MTM® 2.0 mL tubes/1.0 mL of solution	50
CHM00C171	PrimeStore MTM® 5.0 mL tubes/1.5 mL of solution	50
CHM00C154	PrimeStore MTM® 3.0 mL tubes/1.5 mL of solution	50
CHM00C165	1 liter of bulk PrimeStore MTM® solution, bottle	1

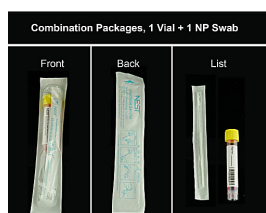

ATM

This Analyte Transport Medium from Longhorn Vaccines & Diagnostics is designed for optimized molecular testing while preserving and stabilizing proteins & antibodies for rapid testing (no Guanidine or Ethanol).

Thomas No.	Description	Quantity
CHM00G912	PrimeStore ATM® 5.0 mL tubes/1.5 mL of solution	50

VTM

Our Viral Transport Media products are used to accurately reduce the degradation of viruses upon collection. We are proud to offer the following products from NEST Scientific, Miraclean Technology, Gemini Bioproducts, and Alpha Teknova.

Thomas No.	Description	Quantity
CHM00C686	NEST 5 mL vials with 2.5 mL VTM	100
CHM00C687	NEST 10 mL vials with 3 mL VTM	100
CHM00C897	Miraclean 10 mL tubes with 3 mL VTM, tubes only	400
